CS 7123 Research Seminar

Term Paper

Due Date: check learn.utsa.edu

As discussed in class, you will prepare a technical paper based on the dissertation you presented.

Objectives:

Use and learn Latex and Bibtex, and practice writing a technical paper.

What to do/submit:

Your paper should have 4-5 pages, include at least one figure. Submit it as pdf file.

Your paper may focus on one specific problem in the dissertation, and it can be structured as follows:

Title

Abstract

Introduction

Related Work

Proposed... method/solution/algorithm....

Performance Evaluation experimental results...

Conclusions and Future Work

References

Note: If you are currently working on your own research paper, you can further work on it and submit it instead of the one based on the dissertation...
